

BEGINNER LEVEL

Introduction to Music Production (DAWs):

- **Skills:** Familiarize with Digital Audio Workstations (DAWs).
- **Activities:**
 - Explore basic functionalities of popular DAWs.
 - Create simple music projects using loops.

Introduction to Sampling:

- **Skills:** Understand the basics of sampling.
- **Activities:**
 - Learn how to incorporate samples into music production.
 - Experiment with basic sampling techniques.

Beat Production using Loops:

- **Skills:** Create beats using pre-made loops.
- **Activities:**
 - Practice beat-making with loop libraries.
 - Understand rhythm and basic drum patterns.

Introduction to Music Theory:

- **Skills:** Grasp fundamental music theory concepts.
- **Activities:**
 - Learn basic scales, chords, and progressions.
 - Apply music theory in simple compositions.

Introduction to Audio Engineering:

- **Skills:** Understand the basics of audio engineering.
- **Activities:**
 - Explore audio signal flow and basic processing.
 - Gain knowledge of recording techniques.

Mixing Basics (Panning, Volume, Reverb, Delay):

- **Skills:** Learn fundamental mixing techniques.
- **Activities:**
 - Experiment with panning, volume, and basic effects.
 - Create balanced mixes for simple projects.

Album Creation:

- **Skills:** Assemble a basic music album.
- **Activities:**
 - Plan and organize tracks for a mini-album.
 - Gain an understanding of album structure.

Music Conception:

- **Skills:** Develop initial musical ideas.
- **Activities:**
 - Explore musical inspiration and brainstorming.
 - Begin conceptualizing musical projects.

Music Arrangement:

- **Skills:** Understand the basics of musical arrangement.
- **Activities:**
 - Arrange musical elements into cohesive structures.
 - Explore various arrangement techniques.

BEGINNER LEVEL

Music Editing:

- **Skills:** Learn the fundamentals of music editing.
- **Activities:**
 - Edit and refine musical elements.
 - Understand the basics of audio manipulation.

Introduction to Songwriting:

- **Skills:** Explore the basics of songwriting.
- **Activities:**
 - Write simple lyrics and melodies.
 - Understand song structure.

Final Project:

- **Skills:** Apply learned concepts to create a basic music project.
- **Activities:**
 - Produce a complete song or instrumental.
 - Share the project with peers and receive feedback.
